Victor Economides

Limassol, Cyprus, +357 99866883, victeco123@gmail.com

PROFILE

I am passionate about the world of technology and everything that revolves around it and no matter what I am always up for a challenge! I also love doing photography, playing the guitar and singing.

EMPLOYMENT HISTORY

Jun 2024 - Aug 2024

GoLang Software Engineer Intern, Exness
Limassol

- Tracing improvements in several critical services of Exness.
- Better error reporting, with links towards trace UI and logs UI – one click and you see traces/logs.
- Found a critical bug in new http/v2 library, which could lead to Exness services downtime if not detected in time.
- Ratelimit-configurator service to configure distributed rate limits – with PostgreSQL database, HTTP RESTful API.
- Integration of API gateway with ratelimit-configurator service to dynamically load/update rate limit configuration applied to incoming HTTP requests.
- Integration of ratelimit-configurator with Exness TOMS widget platform – to read/add/update/delete in the UI with fine-grained permissions.
